

Energy

Energy is the ability to do work (*move things, change things, heat them*). Energy is invisible. We use energy for everything we do, from making a jump shot to baking cookies to sending astronauts into space.

Light	Heat	Sound
<p>Energy from the sun that is visible to humans</p> <p>Picture</p>	<p>Energy from the sun related to heat and the temperature of matter</p> <p>Picture</p>	<p>Energy made by vibrations.</p> <p>Picture</p>
<p>Bright - Increase Light</p>  <p>Dim -Decrease Light</p>	<p>Hot - Increase Heat</p>  <p>Cold - Decrease Heat</p>	<p>Loud - Increase Sound</p> <p>Volume</p>  <p>Soft - Decrease Sound</p>
